SIMULATIONS

Advantages / disadvantages

- Real life situations with problem solving activities mean student motivation
- Students are “forced” to speak the language
- Simulations are very much different from role plays
- The teacher has to wait with language corrections
- There is a need for at least ELP level A2

Simulation Examples:

- Ken Jones Nine Graded Simulations
- Return to St Kilda
- News at ten
- Pools Machine Plc:
http://languages.dk/archive/pools-m/manuals/simulation_materials/POOLS-Machine_EN.doc
- Airport: <http://languages.dk/methods/airport.html>
