What I liked best about the software:

At man bare kunne trykke på et ord og så blev det oversat.

What I think could be improved:

designet. det ser tørt og kedeligt ud. selvom det "bare" er et oversættelsesprogram, så betyder farver meget for brugen af det.

 to the "module overlook" you have to press the

What I liked best about the software: IT IS MUCH FASTER JUST TO GET THE ANSWER AND GO ON. IT WILL TAKE A LOT OF TIME IN A NORMAL DICTIONARY.

What I think could be improved:
That the program by it self could find the best dictionary, so i don't have to choose between the 12 different dictionary's first.
